

MARINA *Grad Night*

The Marina Grad Night Booster Club is a non profit 501 (c)3 charitable organization of parent volunteers dedicated to giving the senior class of Marina High School a safe and sober celebration with lifelong memories of a magical night spent with their friends and classmates.

Giving our graduates the best send off possible requires support from our Marina families, school staff, and our community. Our booster club needs volunteers who are willing to help put on our annual event as well as folks who are willing to become part of the board. Every year, members who are parents of seniors "graduate" from the board leaving positions open that need to be filled.

Not to mention, there are perks for joining our crew! Please email us or come to our next meeting to learn how you could help our booster club, and to hear about the benefits of lending us your time and talents.

Our meetings are held on the **third Thursday of every month at 7:00 pm in room 304**. We can't wait to meet you!
